The professor was teaching turkey different time zone so not able to actually talk on Webex

I have really enjoyed my time in this course, especially with professor Gokhan Savas. He is a very kind man always willing to help his students, he is always available to meet for office hours whenever I or any other student needs and is always on time and teaches the entire lesson then goes over examples so we can reinforce what we have learned. I really do appreciate his effort and help for his students in this course!

This course should have been in person, it is very hard to learn computer skills without hands on teaching. Just watching someone do things on a computer and trying to repeat it without them being able to see your screen is ridiculously difficult. I personally struggled and wished this class was in person. However the professors truly cares about his students and wants them to succeed.
