		1	0	0	0	9	5	5	5	I have engaged in class anytime I needed to voice my opinion and wanted to add anything to discussion. '	5	5	4	5	I think that spreading out some of the papers and multiple readings would be effective. Otherwise it is very good. '	5	5	5	2	5	5	He did a very good job in teaching this course. He related topics to us so we could understand better and get the concept. He was outgoing and fun. '								
		0	0	1	0	2	2	4	4	I think I definitely actively participated throughout the course because so many of the social issues discussed were applicable to me.'	5	5	3	5	The class discussion was alright. Throughout the semester I feel like more and more people contributed to discussions. I especially liked the videos they were quite illuminating. We could have had more creative work but I definitely liked the course.'	4	5	5	5	5	5	Such a great prof really energetic and enthusiastic about the material. Funny and approachable and makes effort to know student. '		2		1		2	3	1
		0	1	0	1	6	5	4	5	I was always engaged in classes and talked as much as I could when I had the chance. I worked to my full potential and really enjoyed the class'	5	5	4	5	I think that this class is a very strong class because Gokhan laid out the expectations so you knew what to expect. The class discussion were a little dry sometimes but that is because some people didn't read the article and also because the article wasn't interesting at all. The response papers were a good way to reflect on what was read!'	5	5	5	5	5	5	The instructor knew his subject very well and he taught it in very interesting ways to help keep out attention! If Gokhan could see that we were no longer interested in the subject he would stop and do something fun for a second to regain our attention! The only recommendation I have is to SLOW DOWN when doing lectures!'		1	1	1	1	1	3	3
		0	1	1	0	7	2	4	4	I really enjoyed this class and tried to prepare ahead of time. I tried to stay and be engaged as much as I could.'	4	3	4	5	In this class the instructor really worked on having everyone be engaged and try to participate in every class. He tried to energize the room and make everything as much fun as possible. '	5	5	4	4	4	5	He is constantly engaged enthusiastic about what he does and really tries to make this class as enjoyable as possible. '								
		0	1	0	0	2	4	5	3	My level of engagement was ok but not great. I could have worked harder and been more active in class.'	5	5	4	5	The readings were interesting and class discussions were always pretty good. '	5	5	5	5	5	5	The instructor explained the material well and led good class discussions. Everyone had the chance to speak up if they wanted and he also encouraged participation.'		3	2	2	2	2	2	3
		1	0	0	0	15	5	5	5	I was actively participating in class'	5	5	3	5	more discussions could be added'	5	5	4	5	5	5	the instructor used the time in class wisely although material could be reduced so that there is more time to explain'		2	1	2	2	2	2	
	0	0	1	1	5	4	5	5	As a student I felt I was very engaged in class and always tried to answer questions and think with a ""sociological perspective"" on the concepts we discussed. I always did the readings and found them very interesting to discuss in class. I felt that I worked to my potential. '	4	4	4	4	I really liked our class discussions and group discussions in class. They helped me understand the readings if I didn't fully when I read them by myself. It was also interesting to hear other people's point of views on the matter that may have been different from mine. I didn't like the textbook reading as much it was boring. But the Mapping the Social Landscape and other random articles we read were cool. '	5	4	4	4	4	5	I really liked Gokhan. He was funny and kept the class engaged in what we were discussing. He made me interested in sociology and see things that are corrupt in the nation and make me want to change them or make a difference. The only thing is he should put more pressure on students to speak in class by calling on them and make sure everyone is participating (participation grades?). '				1					
	0	0	1	1	3	4	5	4	As a student I participated a good amount in class. I thought our professor made it easy for us to participate. '	5	4	4	4	I thought the way he organized class discussions was good. My favorite part of this course was the readings we did. I thought they were very interesting and taught us the most. Our professor has very good teaching qualities and I found that to be very important with this class. '	5	5	5	5	5	5	I found our professor to be a very good teacher. He is very good at grabbing a classes attention and teaching in an interesting manner. He gives our class a lot of opportunities to ask questions and share our thoughts.'		2	1	2	2	1	2	2	
	0	0	1	0	5	4	4	4	I believe I could have participated more but I was engaged and worked to my full potential throughout the semester.'	5	5	4	5	Strengths: Lecture notes discussion sessions readings.'	5	5	4	4	4	5	The instructor knows the topic area well and is effectively able to express ideas and answer questions. '		2	2	2	3	1	3	3	
	0	0	1	1	6	3	2	4	I engaged myself in class discussions. I went to class I had my articles done for the week.'	5	5	5	5	The class really focused in different studies that took place with the articles. The class also helped outline the importance of every chapter and the material within it through power point presentations.'	5	5	5	5	5	5	The instructor did his job superbly well. He took his time in answering any question a student may have had and he also made sure that everyone understood the material before moving on to the next thing.'		2	2	2	2	1	1	2

	0	0	1	0	5	3	4	4	I feel like I am usually pretty engaged in class and I show up with a few questions based on the readings that were due for the particular class period, its easy to be attentive because the professor is very engaging and he tries to make the subject fun or interesting for all of the students'	5	4	4	5	the course overall is well put together, we do a lot of readings which at times can seem like busy work but they all seem important to what we are talking about and learning about for the class, good set up for an introductory class'	5	5	5	5	5	5	he is a great instructor for this and I would imagine any other class. very interesting and engaging likes to have fun with the material very lively and energetic. he makes examples that can relate to everyone makes good use of time and is very easy to follow. some times he goes a little fast through material but other than that he does a great job overall teaching and explaining the subjects for class. I really enjoyed having gokhan and he did a great job teaching our class'						
	0	0	0	1	4	4	5	4	I feel that I participated in this class and was well prepared for each session. I felt like I put my full effort into the responses and was engaged in discussion'	5	4	3	4	This course brought up some valuable issues in the world worth taking note upon. Most of the readings were interesting and were fun to discuss but some were hard to read and didn't make much sense. The lectures were very clear. I felt like the class was rushed sometimes during discussion.'	5	4	4	4	5	4	I feel like the instructor rushed through some issues that were interesting to talk about but overall very fun and easy to understand.'	2	2	2	2	1	2
	0	0	1	1	5	5	5	4	I had a hard time engaging with my discussion group about the articles. However I tried hard to make up for it where I could in other areas.'	5	5	5	5	The course used articles to illustrate concepts learned from the lectures. Some of the articles yielded fruitful discussion while others did not. '	5	5	5	5	5	5	The instructor was very knowledgeable about the subject enabling him to answer any questions we had about the concepts. He was approachable and tried to make class enjoyable every day.'	2	2	3	3	1	2
	0	0	1	0	4	4	4	4	I feel like I did a good job in this class I could have studied more or read some of the articles more carefully but I have other classes with very demanding work so I can't spend too long on it. I was pretty engaged in class although I could have participated more.'	5	3	4	5	I think the structure of the class made it a lot easier to learn some of the concepts because the lectures on Monday would prepare me to accurately analyze the readings for Wednesday. Those helped a lot with learning the class material.'	4	5	5	4	4	5	He did a good job of keeping everyone interested especially on days when everyone was really tired and didn't want to be here he would make a lot of us laugh by joking with us and it kept the classroom really lighthearted. Perhaps on lectures could go a little slower and give people more time to write down the concepts.'	1	2	2	1	1	2
	0	0	1	0	3	4	5	4	I am here every class I don't say a whole like but I am listening and engaged in the topic because they are mostly very interesting. '	5	5	4	5	He is very good at getting everyone involved with group discussion which tend to be very easy to get involved with because the topics are interesting and so are the readings that we have to read for class. I like how everyday is something different we are not just listening to lecture the whole time. I think he has alot of passion for sociology and that shows with how he is teaching us. '	5	5	5	5	5	5	I think he is a great instructor he cares/loves what he is teaching and that shows. He also is always making sure we understand everything we are doing. Very passionate and is always willing to change things up to keep the class engaged in the topics. '	2	1				3
	0	1	1	0	5	5	5	5	I feel that I was a relatively active participant in class. I found the course to be extremely easy having taken a similar one before so I fully admit to not studying much or trying hard outside of class besides doing the readings and essays. I hardly ever opened my textbook though...the class feels a bit like an easy A.'	5	3	2	2	I wish the lectures could be slowed down a bit for easier note-taking. The assignments were easy and interesting overall but I feel the class was not as interesting as it could have been. Perhaps more real life connections could have been made. However the class was very easy.'	4	4	4	5	3	4	I think Professor Savas was an excellent professor. The only negative thing I can say is that I wish he would slow down a bit during lectures so that it was easier to take notes. He is a very approachable easy to talk to man however and I enjoyed having him.'	1	1	1	1	2	3
