	0	0	1	1	3	5	5	5	I think I came to class prepared and participated adequately.	5	4	3	5	I think the class was great	5	5	5	5	5	5	Gokhan is the greatest!!!!!!! He's one of m favorite profs that I have had.					
	0	0	0	1	3	3	5	4	Read all the articles and attended all classes	4	4	2	3	The discussions in class were very helpful to understanding the readings.	5	5	5	5	5	5	The instructor was very good at leading the discussions in the directions that it needed to go.					
	0	0	0	1	3	3	5	5	I attended class and participated regularly.	5	3	3	4	One area that could need improvement is the class discussion - sometimes the provided questions were hard to answer because they were long and given orally.	5	5	5	3	5	5	The instructor did a good job, he demonstrated extensive knowledge of the subject.					
	0	0	0	1	3	3	5	4	Tried as hard to stay focused as possible. Being a junior it was hard to do this due to learning about the majority of the subjects in other classes	5	4	3	3	I really did enjo learning more aout the topics from a sociological perspective. However, I was dissapointed by the lack of lecture in class i feel like it would have helped the group conversations flow more fluidly	4	5	5	5	5	5	Really like the class overall and how it is taught!					
	0	0	0	1	4	3	5	5	In this class I always participated and was engaged in class because it was one of my classes that kept me interested and intrigued.	4	5	3	4	The readings and lectures that took place during class made everything easy to tie together. Also they were relevant with everyday life.	5	5	5	5	5	5	You could easily tell by Gokan's energy that he was passionate about the field of sociology which made learning from him that much easier to do.					
	0	0	0	1	4	4	5	5	I read the assigned articles for each day and completed daily memos. I completed the critical essays on time, and studied for exams. In addition, attended class regularly and attempted to participate in class discussion.	5	5	5	5	I think the course was very interesting and covered many important topics. The class was laid out well to have articles and powerpoints, however, I think too much emphasis was put on class discussion, so maybe more time could have been spent on the the powerpoints instead of discussing two articles a day.	5	5	4	3	5	5	The instructor did a wonderful job with integrating teaching and fun in the classroom. He found a way to teach us, but still made us laugh. Although he felt like he talked too much, it hought all his points and discussions were insightful and relevant.					
	0	0	1	0	10	3	4	4	I think that I worked as best I could, maintaining a high standard of work	4	5	4	4	The course was fine I can think of no places where improvement is needed	4	4	4	5	4	5	The instructor was fun, nice, relatable, made the course work easy and was always accessible.					
	0	0	1	0	6	3	4	4	I worked hard to get my reading done every night and e able to talk about it class without any difficulty. I could have devoted more time to it now looking back at how this semester went.	5	5	4	5	Discussions in class tend to become stale after a while but they are beneficial. I always enjoy confirming with others what I believe what the topics were about.	5	5	5	5	4	5	He was very knowledgeable and was very interesting to learn from. Probably my favorite professor from this year. Always made sure we understood what he wanted us to know and did a good job of presenting the information he had to give to us.					
	0	0	0	1	8	4	5	5	I did all of the homework and readings assigned for class. I came to class prepared and although I did not talk too much I understood the material and have worked hard in this class.	5	4	4	5	I liked when we discussed more about the articles because it was interesting hearing when peoples thought and it all hear the people of the people of the theory of the The work load was very doable. It was an overall good class,	5	5	4	4	5	5	He was patient and he really knew the material. He also made class very interesting which made the material much easier to learn and understand.					
	1	0	0	0	3	2	5	5	I worked hard as a student and though I sometimes came unprepared I typically worked my hardest.	4	4	3	4	Using articles to teach was an interesting method, but I felt like I would rather learn primarily out of a textbook with articles as supplementary resources.	5	5	5	5	5	4	Gokhan performed very well as an instructor.

	0	0	1	0	10	4	5	5	I made sure to read all the articles and chapters before coming to class. I completed all the memos on the articles before class. I gave answers to the questions during our small group discussions and I would sometimes give answers during large group discussions.	5	4	3	4	I liked the small group discussion questions, they helped with understanding the concepts. The mini quiz questions also helped a lot in understanding the concepts.	4	4	4	4	4	4	The instructor went over the material and concepts well. He made them easy to understand. He made class fun and enjoyable as well.						
	0	0	0	1	7	2	5	4	I felt that as a whole I was very engaged in the class and made the effort to participate in class multiple times during each class period. I also came prepared to class by being sure to read the articles and write the memos beforehand.	5	4	3	5	I felt that this course did a very good job at helping me to view things from a sociological perspective. I had never before considered looking at a situation from that way before. I felt that the readings were a very good way of applying the concepts that we learned in the text. I really liked that there were quizzes after each of the readings as they helped me to see whether or not I understood them. I also enjoyed the discussion in class about the readings. One area for improvement would be to place the lecture powerpoints on KATIE much earlier before the exam.	4	5	4	3	5	4	Gokhan did a good job or initiating instruction and I felf that by the end of the course he found a good balance between discussing the readings and doing lecture powerpoints. I wish that we would be able to know our grade before going into the final and I had wanted more comments on my first critical essay in order to see how! could improve for the second one. Overall he was a very charismatic professor who I very much enjoyed having.						
	0	0	1	0	6	5	5	5	I believe that I was very engaged in class and participated as much as possible. Also, I worked really hard and thought that I did a very good job in this class.	5	5	5	5	Some strengths of this course were the readings that we were assigned, the practice quizzes that we took after each discussion, and the lectures that we had. Some areas for improvement for this course are, there could be more in-depth class discussion instead of just brief discussion everyday.	5	5	5	5	5	5	I believe that the instructor had many strengths and that there is not many opportunities for improvement.						
	0	0	1	0	3	2	5	5	I felt that this class was conducive to speaking up in class. I felt that my participation in class discussion and conversation was high.	5	5	3	5	The class had the same structure every day, which could be seen as a strength or a flaw. I personally enjoyed the structure because it was routine and not very stressful - I always knew what was coming.	4	5	4	4	4	5	Professor Savas is a good teacher who knows much about sociology. He taught the class primarily by discussion of readings. This class made me think about things in new ways that I had never thought about before.						
	0	0	0	1	6	4	3	3	I was engaged in class. I enjoyed the in class discussions and gained a lot of knowledge from them. Work outside of class needs to be better though.	4	5	4	5	I thought that this course was perfectly constructed. Professor Savas did a wonderful job in preparing the class and an even better job at teaching it. No areas for improvement needed. Just a great course.	4	5	5	5	4	5	If I was grading Professor Savas on a scale of 1-100 on how well he taught this course his score would be a 99 or 100. Great instructor who displays a passion for the subject he teaches, and successfully instructs his students in a fun and friendly environment.						
	0	1	0	0	4	4	4	4	I think I was a well engaged student. I contributed to my small groups and was interested in the contributions of others.	4	3	2	3	I liked the set-up of the course. I would have liked if our class had some where wave liked if our class had some of what we talked about was really relevant to current events, but that responsibility fell on the students not necessarily the set up of the course. I'm not sure what could have prompted more enthusiastic discussion. I really liked the movie we watched called "linequality for All" as it was about really modern issues.	4	4	3	2	4	4	Prof. Savas is a very enthusiastic and engaging professor. I liked his teaching style because everything was very clear. An opportunity for improvement would be in giving timely feedback on assignments such as our daily reading responses and critical essays.

	1	0	0	0	5	5	5	5	Because this is a class dealing with my major, I was happy to read the articles and participate in class. This is something that I am very interested in and like to do.	5	5	4	5	I liked how the class was set up because there were a lot of different methods of learning, (reading and analysis, group discussions, and lecture). I was a good way to use different parts of the brain. Overall I was pleased with the articles we read. Although some of them were a little boring or challenging, I enjoyed them for the most part. It was very interesting to think of things in a way that I hadn't before.	5	5	5	4	5	5	Again, I was really impressed and pleased with the class. I thought there was a good balance of getting the information needed and also having a little bit of fun. You were definitely funny and it made the class enjoyable. One thing that I would recommend is that if there is an article that is not online right away or in the book to send it out promptly. I'm sure you have many other things to do, but that helps us get the homework done in a timely manner as well. Thank you for a great semester!				
	0	0	0	1	5	3	5	4	I did all of the readings and memos, but I didn't participate in large group discussion as much as I should have.	4	4	3	4	Got better with article discussion after we took the survey about what to improve on. Focus more on how the major terms/concepts are used in the articles.	4	5	4	5	5	4	At the end of the semester I feel like discussion became less focused and there wasn't as much effort put in by the professor as he did at the beginning of the semester. He did do a good job of getting people involved in discussion.
