	0	0	0	1	10	4	4	5	I participated in all group discussions I worked to my potential and I was an active participant in the classroom.'	5	5	5	5	The readings were all interesting to me and I could easily engage myself. Class discussions never got boring because the teacher was always enthusiastic. PowerPoints got a little long but I learned a lot. Assignments were only readings-no worksheets. I liked that."	5	4	5	5	5	5	I give my instructor an A. He was my favorite of all because he was easy to talk to and made everyone in the classroom feel comfortable.	5	5	5	5	5	5	5
	0	0	0	1	2	3	5	4	very engaged worked to potential active participant'	5	5	3	5	strengths: gohkan's enthusiasm for the subject was definitely the tiggest strength: his energy and knowledge for the subject made me want to learn and be interested in it as well. it was well organized he explained everything so i could understand it fully and it held my attention. I learned a lot of new information. I have no improvements?	5	5	5	5	5	5	gohkan was an amazing instructor my favorite professor so far because of his enthusiasm. '	1	1	1	1	1	3	2
	1	0	1	0	3	5	4	5	I am very engaged in conversation in the class I have an excellent working ethic in this class this is my favorite class of the semester.'	5	5	5	5	I am always excited to come to this class because I never know what to expect! I love that we go over articles in class and have class discussions on the articles. In doing this I believe I am learning a lot by these discussions.*	5	5	5	5	4	5	Professor Savas is a very entertaining individual! I never know what awesome and exciting thing he's going to do in class! His strengths are keeping us on track while sometimes veering away from the material to give us a break then brings us back to what we're discussing in class.'	1	1	1	3	1	1	1
	1	1	1	0	4	5	5	5	I always worked to the best of my ability to complete readings on time and come to class prepared ready to engage in group conversation. I believe I maintained a high level involvement throughout the course in outside work and group conversation. I spoke at least once every class if not more than the course of the course o	5	5	3	4	I thought for an intro class this class does all that it needs and was structured in a way where work was required but there was no surprises no hidden agendas. If you did your work and participated in class success would come to you. I enjoyed class discussions and readrings although I am not 100% convinced small group discussions we as effective as they could be. Lecture note a week was good to get a basis before diving into the readrings and the movies always reinforced previously discussed topics in class.	5	5	5	5	5	5	The instructor was at all times engaging and knowledgeable of the topics. It is passion for the topic and excitement to teach was transferred to his students this made for engaged and effective learning.	1	1	1	1	1	3	1
	0	0	1	0	4	4	5	4	I always did the reedings and would participate in class discussions but I don't think that I sent enough time outside of class thinking critically about the articles.	5	4	3	3	The presentation of the information was well done but it think that there should have been more hands on application of the concepts that we went over.	4	5	2	4	5	4	He was engaging to listen to. His lectures were never dull although each class section was structured similarly. Like I said before i hink that there should have been an assignment at the end of the semester like an ethnography so we could put our knowledge to use. Also more variation in class structure.	2	1	1	1	2	2	2
	0	0	1	0	4	3	5	4	anticles. I have participated in class and completed the readings before response papers and quizzes were due. I took notes on the textbook readings outside of class. I have incorporated my own life into my sociology papers.	5	4	3	5	Going over Powerpoints more quickly in order to get to the reading dicussions or query to the reading dicussions to query to we are as good who improve the class. Asking less direct questions about the reading but more questions that are more thought provoking would be another part that could be improved on. I enjoy the readings and the online quizzes are helpful in understanding the material.	5	5	5	5	5	5	I have bearned a great deal in this class and this instructor makes good use of dates time and makes learning sociology fun. This class does not make students worthed about class work while still having them learn a lot. I am very glad I took this class. This instructor does a good job at telling the class his expectations and giving instructions. He is always in a good mood and the students pick up on this. He is great at getting students to discuss their feelings and thoughts about readings and he provides valuable feedback. He goes over the main points of the reading detail. Overall I can't think of many things for improvement. Maybe take less time on powerpoints.	1	1	1	1	1	3	2
	0	0	1	0	3	4	5	4	I came to class everyday prepared with what we were assigned but I didn't speak up during class as much as I should have.	5	4	3	4	Most of the articles we read were very interesting and learned quite a bit from but there were some that I didn't really get much out of. Class discussions always helped me to better understand different concepts and see different perspectives on things."	5	5	5	4	5	5	I thought he was a very good professor and I recommended him to anyone I talked to that needed a Sociology class because I really enjoyed it. He does get off topic sometimes but it usually has some relationship to what we are learning about and it makes the class more interesting and fun. We had a good routine so you knew what we would be doing each day for the most part which I really liked.	2	2	1	2	2	3	1

	1	0	1	0		6	5	5	5	I thought I worked very hard in this class (both in and out of the classroom) and actively engaged in class discussions. For this reason I have earned high marks thus far. '	5	5	4		I thought the scholarly research articles we discussed every week in class were beneficial. I thought having a PowerPoint at the beginning of each chapter was very useful as well. I really do not see much room for improvement however it would be fun if we could have a debate at some point during the semester."	5	5	5	5	5	5	It thoroughly enjoyed this course and this was mostly because Gokhan made class so enjoyable. His positive enthusiastic energy made me eager to come to class every day and motivated me to learn new things! You can tell that he truly cares about us as students and wants us to perform well. I think he is a wonderful professor and I am looking forward to studying again with him in the spring semester.	1	1	1	1	1	2	3
	0	0	1	0		4	4	4	4	I really enjoyed the class content and the instructor. I worked hard on my homework assignments however I am somewhat shy and could have been actively participating much more.	5	5	4	4	I really enjoyed the lectures and the reading conversations we had in class. They were both interesting and thought provoking.'	5	5	5	4	4	5	I enjoyed having Dr. Savas as an instructor he was very good at explaining the content in a clear understandable way. This made it easier for me to grasp the concepts. He would always be in a good mood and his lectures were interesting and well laid out. For improvement I would say would be use of class time however this wasn't a very common issue. Sometimes we would just not get through everything in class.'	1	1 1	2	2	2	2	3
	0	0	0	1		6	4	5	3	I would come to class regularly. Sometimes I would doze off and fall asleep in class. This was because of my sleeping management which I have fixed. When I am in class I am attentive and interested in everything that is going on.	5	5	5	5	Class discussions are great everyone gets involved making the subject very interesting. The reading are normally interesting and pertain to the subject. The paper that is due every Friday is a great way to review on our readings for that week. The group discussions we have on our readings is great and makes it easier to understand the reading.'	5	5	5	5	5	5	My instructor for this subject is very great. He helps us catch up if we are behind. The communication out of class is also great he emails to keep in contact. His jorytuness in class makes it furnier which also makes it easier to learn. He introduces new bopics really well through PowerPoint then through class discussions.	1	1	1	2	1	2	1
	0	0	0	1		5	3	4	3	I could have done more it just seemed like other work was more important'	4	4	3	4	The powerpoint lectures are the most helpful thing'	4	5	5	5	5	5	The way he teaches is the best'	1	1 1	1	1	1	1	1
	1	0	0	0		6	4	5	2	I make sure to attend all the classes in fact never missed any. Normally read class material after lectures and if a question rises I do not hesitate to ask.*	4	4	3	4	I like the fact that the lectures are more summarized than the actual course text book which makes easier to understand the context. In addition the fact that normally we do not use the text book only but also wideos for class discussion often give a more realistic idea of what we are talking about. For improvement I would suggest that we could use more personal examples. In other words students have to be asked to apply concepts in their personal lives.	4	4	4	4	4	4	I like the way the instructor structures the classes. He makes them more interesting since Sociology is full of theories and concepts that can be sometimes ""boring" to talk about. '	1	2	. 2	2	3	3	3
